ABOUT ME

Results-driven Flutter Developer with 4+ years of hands-on experience building robust, cross-platform mobile applications for Android and iOS. Expert in crafting intuitive UIs, integrating APIs (Google Maps, Firebase, Stripe), and connecting physical health devices for real-time vitals monitoring. Proven track record of deploying apps to the App Store and Play Store, managing code repositories, and collaborating within cross-functional teams. Adept at delivering user-centric, high-quality solutions in fast-paced environments.

WORK EXPERIENCE

 **Stellix Soft** – Rawalpindi, Behria phase 7, Pakistan

Senior Flutter Developer

[01/06/2025 – Current]

- Developed and maintained **production-ready Flutter applications** for **iOS and Android**, using **BLoC architecture** to deliver scalable, clean, and maintainable code.
- Integrated and optimized **RESTful APIs**, managing authentication, data flow, and error handling across multiple environments (dev/staging/prod).
- Led **end-to-end deployment** to **Apple App Store** and **Google Play Store**, including build configurations, signing, testing (TestFlight / internal testing), and release management.

 **RiayaTech** – Islamabad

Flutter Developer

[01/06/2024 – 01/07/2025]

- **Development of a healthcare** project, improving skills in API integration, physical device connectivity (e.g., blood pressure and glucose monitors), and delivering user-focused solutions.
- **Enhanced problem-solving** abilities through hands-on computer maintenance and performance optimization.
- **Strengthened collaboration and negotiation skills** by managing supplier relationships and ensuring timely resource delivery.
- **Managed version control** and code collaboration using GitHub, maintaining clean and organized repositories throughout the development lifecycle.

 **App-Desk Inc** – Islamabad, Pakistan

Flutter Developer

[01/06/2022 – 01/06/2024]

- **Delivered high-quality mobile applications** across multiple projects, demonstrating strong Flutter proficiency.
- **Collaborated effectively within cross-functional teams**, leveraging strong communication and teamwork skills to meet project goals and deadlines.
- **Successfully deployed** iOS apps to the App Store and Android apps to the Play Store, ensuring compliance with platform guidelines and optimizing app performance.
- **Managed version control** and code collaboration using GitHub, maintaining clean and organized repositories throughout the development lifecycle.

PROJECTS

Super App

- Developed a **community-driven social and marketplace mobile app** featuring content posting, real-time chat, push notifications, and user engagement tools.
- Implemented **event and game creation/booking** workflows alongside **in-app product listings and sales**.
- Integrated **Stripe payments** to enable secure transactions, delivering a full-scale production app on **iOS and Android**. Write here the description.

IHealthCure Write here the description...ealthcare app enabling appointment booking, real-time vitals monitoring (blood pressure, glucose), online payments, and rider task management. Integrated physical health devices and seamless payment solutions.

Health Tracker

- implemented a Flutter-based health dashboard that reads real-world vitals from wearable devices through **Google Health Connect**.
- it securely pulls aggregated health data (heart rate, steps, distance, energy burned, etc.) from Health Connect using the Flutter **health** plugin.

Self-Serve

- Restaurant app for food ordering and payment via Stripe or card reader.
- Implemented printer connectivity (LAN, Bluetooth), notifications, and local database (Sqflite).
- Integrated native printer SDKs for Android and iOS in Flutter.

Online-Ordering Manager

- Backend application for managing restaurant orders, optimizing workflow, and enhancing operational efficiency.

Click me Cursive

- Interactive children's app for alphabet learning with drawing, microphone-based pronunciation practice, and voice navigation.

[05/08/2023 – 01/12/2023]

Medico App

- File manager app with uploads, downloads, offline access, and admin panel for managing posts, polls, and notifications.

SKILLS

Programming Concepts

OOP / Data Structure

Application Development

Flutter / Firebase / IOS Deployment / Bloc / GetX / Riverpod / RestAPIs / firebase storage / Customising Packages / Google Maps / Local database / Integrating Native SDK / Animations

Code Management

Version Control Systems (Git, Bitbucket)

Web Development

Node.js / Express.js / PHP / Laravel / MySQL / MongoDB / JavaScript

EDUCATION AND TRAINING

Computer Software Engineering

University of Engineering and Technology, Mardan Pakistan [01/08/2019 – 01/06/2023]

Address: Charsadda chowk, Mardan KP Pakistan, Mardan (Pakistan) | Website: <https://www.uetmardan.edu.pk/uetm/> | Level in EQF: EQF level 1
